Operations since
1945

The name Al Qahtani Pipe Coating Industries (AQPCI) has become a synonymous with Pipelines Corrosion Protection Coatings in this Industry because of its modern Application Technology Operations, continuous Research & Development, a strong Quality Management Program, a dynamic Health & Safety Management Policy, and Management vision for Market Growth.

As a known leader in the Industry with Operations since 1954, Al Qahtani Pipe Coating Industries (AQPCI) is not only catering to local market demands but has successfully been a Strategic Partner in almost all Mega Prestigious Projects across the Globe with Two Major Production Facilities Strategically Located in the Kingdom of Saudi Arabia and Additional Five Storage Locations to support its Operations. AQPCI has been transformed into a True Market Leader which is fully equipped with Resources necessary to undertake any size of project the Industry may need. Al Qahtani Pipe Coating Industries (AQPCI) is building a New Production Site called Site # 7 at Dammam Riyadh Highway with an Aim of Doubling our Current Production Capacities.

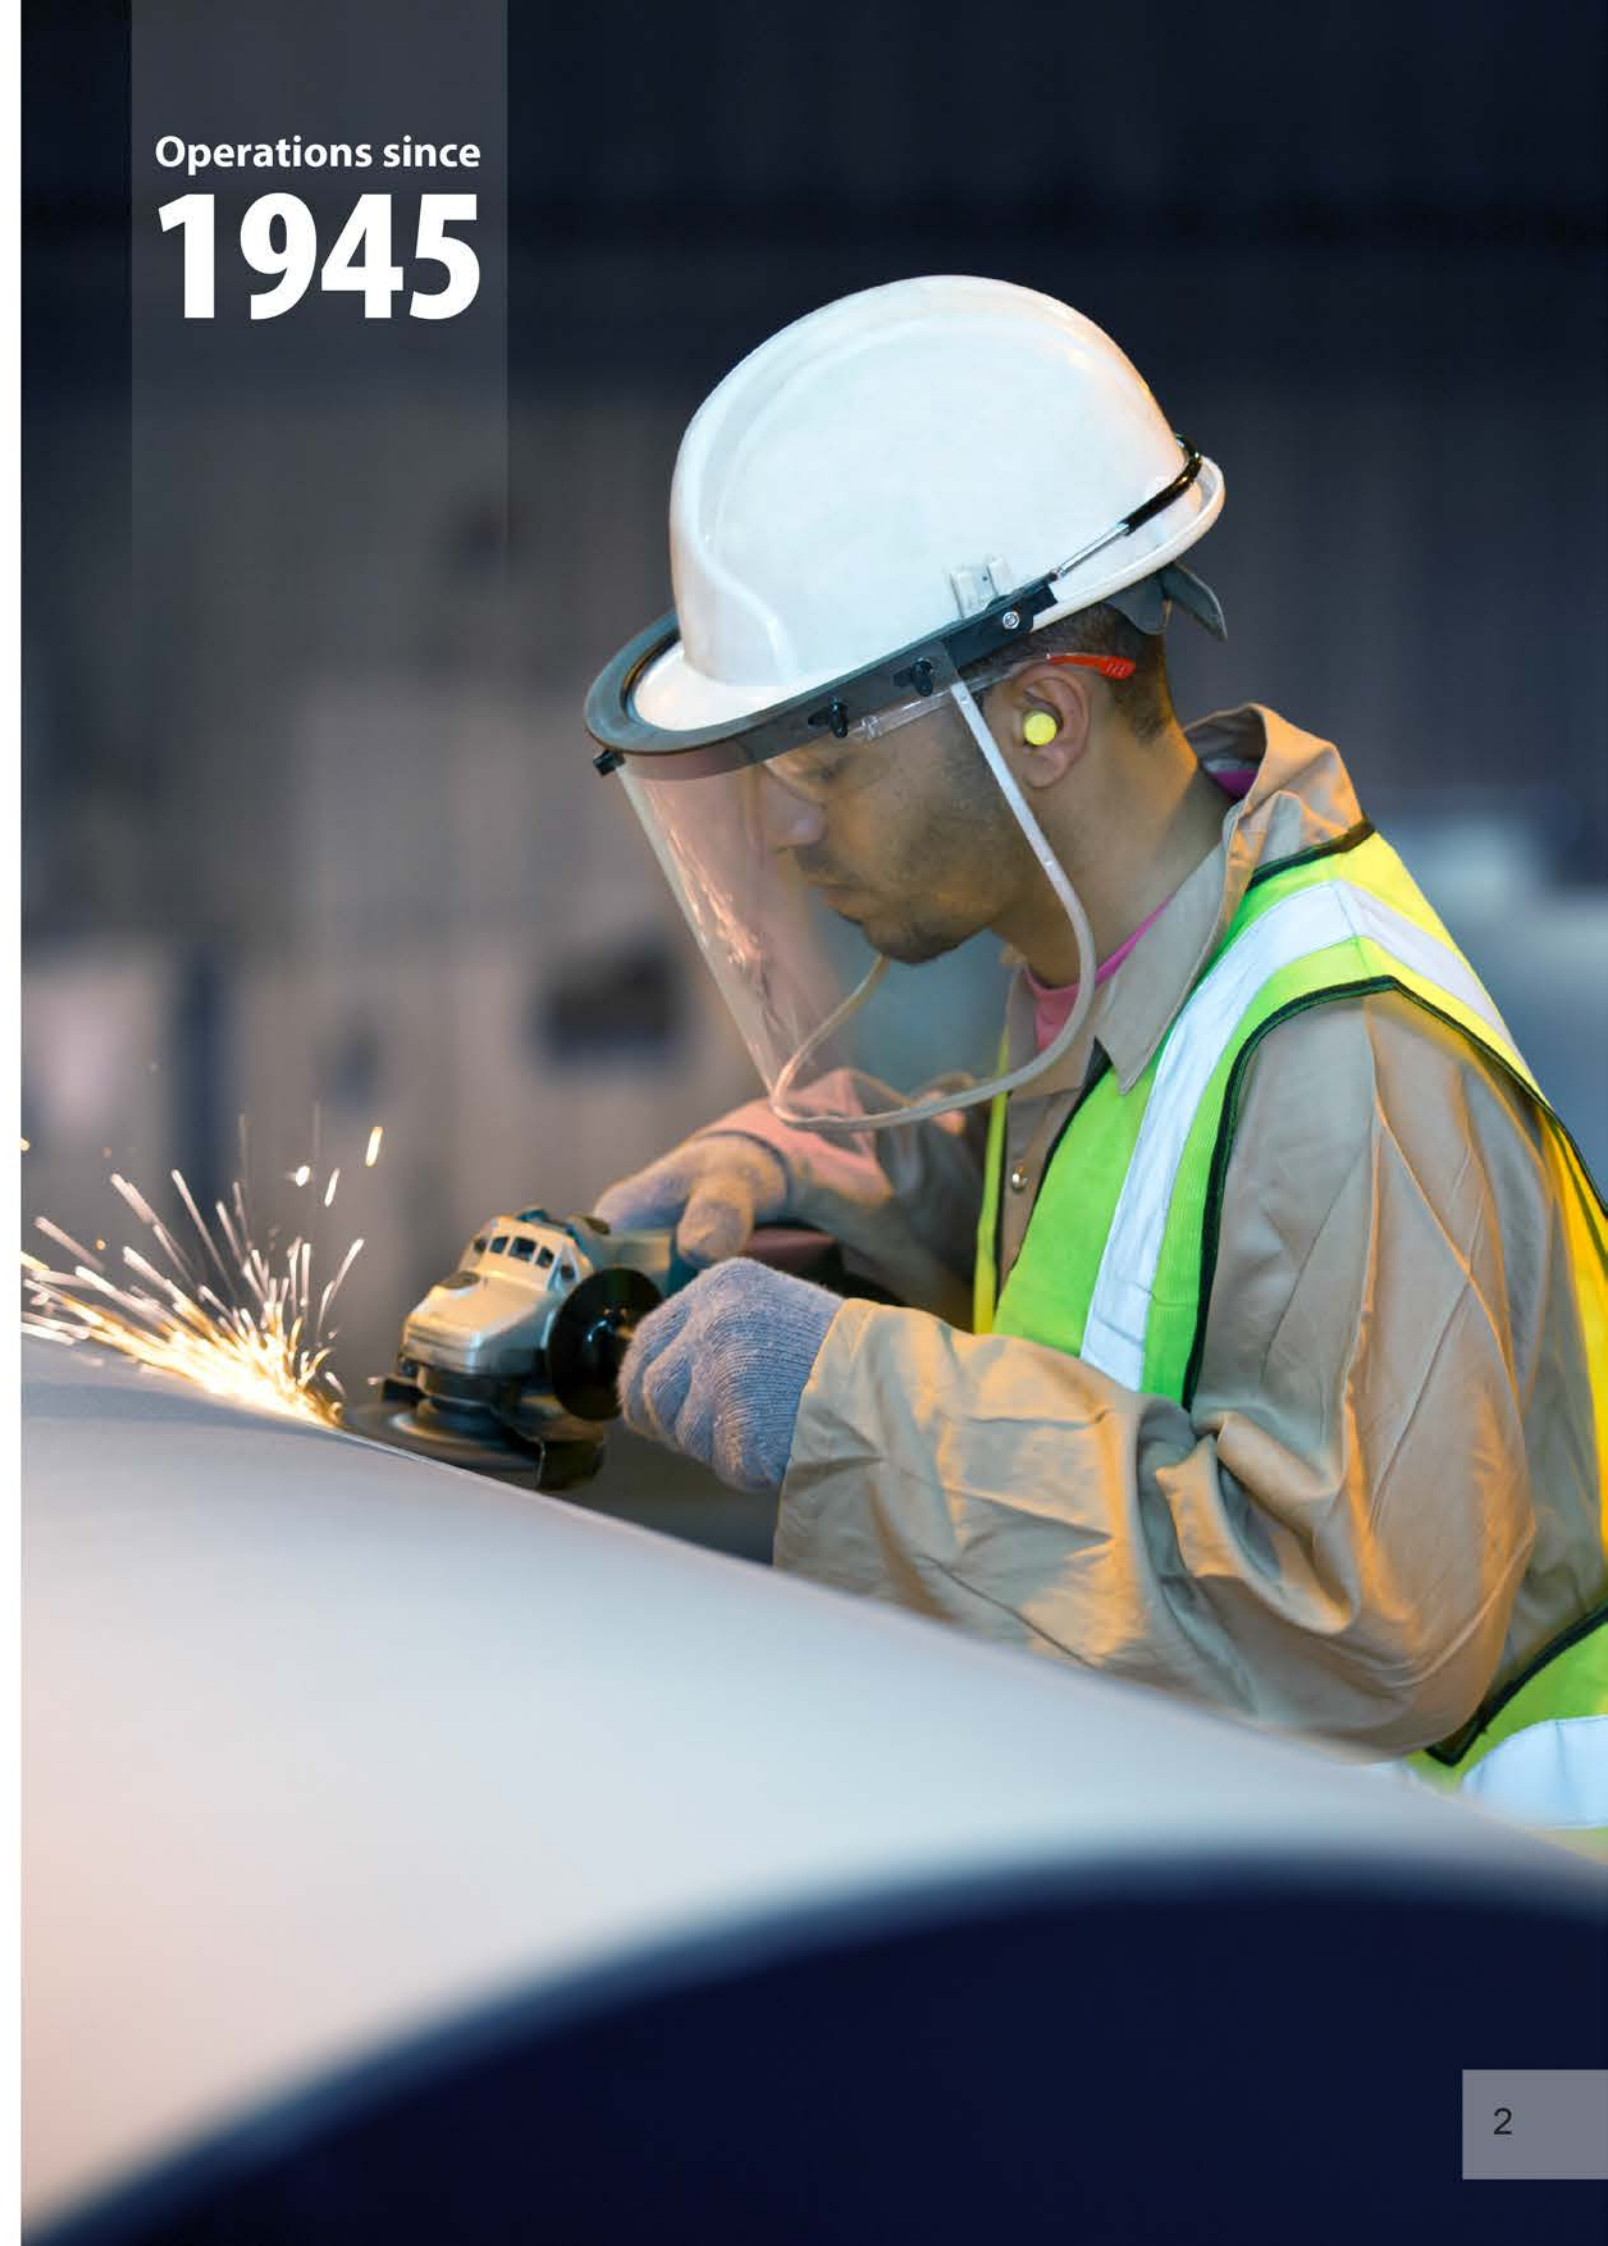

AQPCI Site # 7 shall offer Comprehensive Pipelines Coating Solutions for Onshore & Offshore Pipelines for Oil, Gas & Water Markets under One Roof.

Locations:

1. AQPCI Site # 1 near Dammam Port, on the Dammam Khobar Highway
2. AQPCI Site # 2 is on the Dammam Jubail Road, Khodariyah
3. AQPCI Site # 7 is located on Dammam Riyadh Highway, Dammam

Services Offered:

All types of Anti-Corrosion Coatings whether Internal or External, both in the Shop and Field for size ranging from 2" to 120".

Specialization:

- Internal FBE: Fusion Bonded Epoxy Coatings
- External FBE: Fusion Bonded Epoxy Coatings.
- External 3 LPE: Three Layers Polyethylene Coating
- External 3 LPP: Three Layers Polypropylene Coating
- Double Joint Welding of Pipes
- Fabrication Services.
- Internal Liquid Epoxy Coatings
- External Liquid Epoxy Coatings
- Custom Shop for Internal & External FBE Coatings / Liquid Epoxy Coatings for Fittings & Pre- Fabricated In- Plant Piping Spools
- Concrete Weight Coating by Compression Method for Offshore Pipelines.
- Special Coatings for Heat Exchangers, Vessels, U- Tube Bundles and Boilers
- Shop Applied Internal Cement Mortar Lining of Pipes, Fittings & Pre- Fabricated Spools
- Field Applications of Internal and External FBE Coatings to Girth Welds using Line Travel Robotic Crawlers System at Project Job Site
- Field Applications of Internal and External Liquid Epoxy Coatings to Girth Welds using AQPCI MANUAL Girth Welds Coating Crews at Project Job Site

Capabilities:

Diameter Sizes : 2 to 120" Inches

Pipes Lengths: 6 Meters to 24 Meters

Application of External
CWC: Concrete Weight
Coating to Double Joint
Welded (24 Meters) Pipes
Concrete Weight Coating
Thickness Range:
From 1" to 6"

Major Achievements:

AQPCI is the Pioneer to:

- Apply External 3LPE: Three Layers Polyethylene Coating on 80" Diameter Pipes for a SWCC (Saline Water Conversion Corporation) Water Pipeline Project in 1997. It was truly a Major Technological Breakthrough. Clients as SWCC can now design their projects based on this diameter coating capability of AQPCI.
- Build a New Plant to apply External 3LPE: Three Layers Polyethylene Coating on 100" Diameter Pipes
- Complete Pipeline Rehabilitation 48" Diameter Pipelines for Saudi Aramco which involved Removal of the old coating and applying new coating.
- To apply Field Internal Girth Weld Coating using Line Travel Robotic Crawler Machines in the Middle East.
- To apply Both Internal and External FBE Coatings for pipelines in the Middle East.
- Apply External Concrete Weight Coating to Double Joint Welded (24 Meters) Pipes in the World.

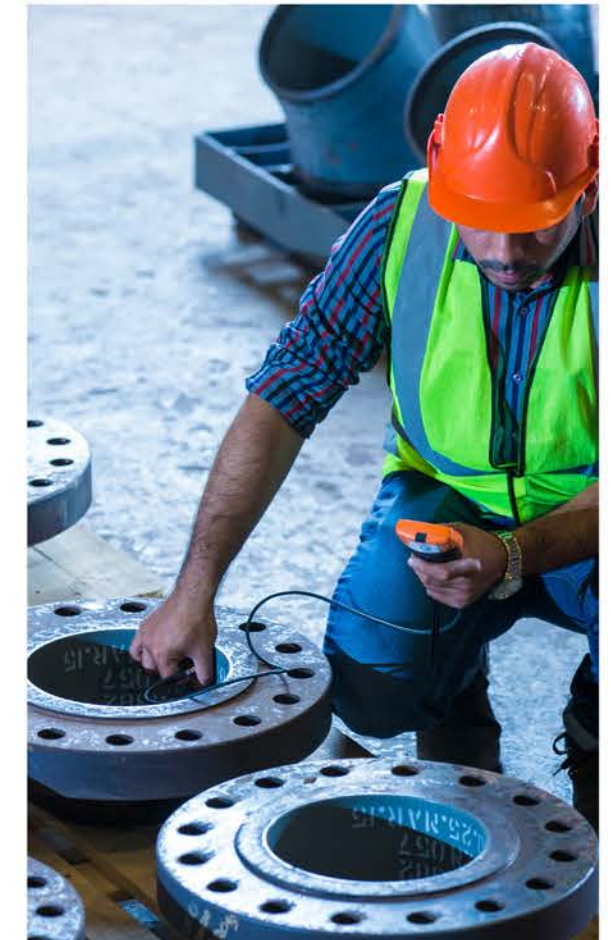

AQPCI
The First to perform a
pipeline rehabilitation
on 48" Diameter
Pipeline for Saudi
Aramco

Recent Major Completed Projects:

- Arabiyah Hasbah 2- Wasit Pipeline Project, Diameter: 16" to 36", 500 KMS Pipeline, Scope: Internal FBE, External FBE, Double Jointing and CWC Coating, Year 2018.
- Yanbu Jeddah Pipeline Project, Diameter: 20" & 24", 800 KMS Pipeline, Scope: Double Joint Welding & External FBE, Year 2018.
- Master Gas Pipeline Project, Diameter: 56", 400 KMS Pipeline, Scope: Double Joint Welding & External FBE, Year 2018.
- Re Route Qatif to Ras Tanura Pipelines Project, Diameter: 30" to 48", 211 KMS Pipeline, Scope: Double Joint Welding & External FBE, Year 2018.
- Fadhili Pipeline Project, Diameter: 56", 900 KMS Pipeline, Scope: Double Joint Welding & External FBE, Year 2016.
- Chile, Bechtel Chile Ltd., Minera Escondida Water Supply Project, 400 KMS, 42" Diameter Pipeline, Scope: Internal FBE Coating & External 3LPE Coating, Year 2015.
- Arabiyah Hasbah 1- Wasit Pipeline Project, 700 KMS Pipeline, Scope: Internal FBE, External FBE, Double Joint and CWC Coating, Year 2013.
- Manifa Plant, 28,000 Fittings & Pre- Fabricated Spools, Scope: Internal FBE, External FBE, Year 2010.
- Iraq, ICOEEP, SOC Offshore Pipeline, 230 KMS Pipeline, Scope: External FBE and CWC Coating, Year 2011.
- Khurais Pipelines, 1,250 KMS, Diameters: 24" to 60", Scope: Internal FBE, External FBE, Double Jointing and Field Girth Weld Coating, Year 2006.

International Projects
