About Us

Founded in 1992 in Dammam as a reputable transportation company dedicated to serving the commodities and materials industry throughout the Kingdom of Saudi Arabia and the Gulf Cooperation Council (GCC) region. With a commitment to professionalism and precision, Earadat has established itself as a key player in facilitating the seamless transport of goods, contributing significantly to the logistical landscape of these vital markets.

Earadat is actively involved in the road haulage and bus transportation sectors, we specialize in offering direct transportation services to major cities across the Kingdom, building a legacy of trust, confidence, and reliability among our valued clients over the past two decades.

Our current fleet comprises Tractor Heads, Trailers, Pipe Dollies, Low Bed Trailers, Fuel Tankers, Water Tankers, Chemical Tankers, Bulklers, and Molten Sulfur Tankers, as well as a fleet of Mercedes Buses, These vehicles are meticulously maintained in adherence to Earadat's high standards and manufacturer recommendations, ensuring optimal performance and in-transit benefits.

At Earadat, we are dedicated to consistently delivering the highest quality services to our clients and are committed to maintaining the excellence that has become synonymous with our name.

Mission & Vision

Mission:

Earadat has consistently demonstrated its excellence in delivering superior transportation services to both the industrial and commercial sectors of Saudi Arabia and the entire Gulf region. Over the past two and a half decades, we have earned the trust, confidence, and reliability of our esteemed clients.

Vision:

Earadat stands as the forefront leader in road haulage within the kingdom and the GCC, offering unparalleled expertise in projects resourcing.

Our Values:

- Safety
- Reliability
- Efficiency

Our Services:

A. Passenger Transportation Service:

We have completed more than 2 million trips transporting more than 800,000 Passengers around the kingdom and the GCC using our fleet of the latest buses in the market equipped with up-to-date amenities and services consisting of:

- On-Board Wifi
- On-Board TV Services
- USB & Electrical Ports
- Cutting-Edge Destination Boards
- Water-Dispensing Systems
- WC

B. General Cargo Services:

Earadat provides this service to many companies through seaports, airports, and land borders. We have 420+ tractor heads with different kinds of load power consisting of:

Flat Bed Trailer Services:

Earadat owns a fleet exceeding 150 Flatbed/Extendable Flatbed trailers underscoring our dedication to delivering comprehensive transportation solutions across diverse industries, including construction, manufacturing, and logistics. Flatbed trailers, versatile and integral within the transportation sector, facilitate the efficient and secure transport of heavy equipment, vehicles, and various types of cargo.

Low Bed Trailer Services:

Our impressive fleet of more than 10+ lowbed trailers, boasting load capacities spanning from 40 to 80 tons, positions us in an ideal position to address a diverse array of heavy-haul transportation requirements. These specialized vehicles have been meticulously designed to facilitate the safe and efficient transportation of heavy machinery, construction equipment, and other oversized cargo, showcasing our commitment to excellence in heavy-haul logistics.

Pipe Dolly:

At Earadat, our fleet proudly consists of 120 pipe dolly trailers, each with an impressive length of 24 meters. These specialized trailers have been meticulously engineered to tend to the unique needs of transporting long and heavy pipes, which are integral to a wide range of industries, including oil and gas pipelines, construction projects, and infrastructure development. Our commitment to providing efficient and cost-effective transportation solutions is exemplified by the 24-meter length of these trailers. This length enables us to transport multiple pipes in a single load, not only reducing transportation costs but also significantly enhancing overall efficiency for our valued clients.

Molten Sulfur Transport:

At Earadat, we take pride in offering a specialized Molten Sulfur Transport Service that showcases our expertise in handling and transporting this substance with the utmost precision and safety. We understand the critical role molten sulfur plays in various industries, and our dedicated logistics solutions have been designed to ensure its secure and efficient delivery.

Our commitment to safety and precision means that we meet the unique requirements of industries that rely on molten sulfur. With EARADAT, you can trust that your molten sulfur transportation needs will be met with the highest level of professionalism and expertise, ensuring the continuity of your operations.

Sweet Water Transport:

At Earadat, we proudly offer tankers with a generous capacity of up to 28,000 liters, specifically designed to meet the diverse water requirements of each kingdom efficiently and effectively. Our versatile fleet is well-equipped to support various water-related needs across different regions, ensuring a reliable and comprehensive water supply solution for all our clients.

Fuel & Chemical Transport:

We excel in the specialized field of Fuel & Chemical Transport, providing a holistic and secure logistics solution tailored to the transportation of these vital materials. Our unwavering commitment is to ensure the safe and efficient delivery of fuels and chemicals, in strict adherence to the rigorous standards demanded by industries that depend on these essential resources.

Cement Bulker Transport:

We excel in the field of Cement Bulker Transport, offering specialized logistics solutions that prioritize the efficient and secure transportation of cement. Our unwavering commitment to reliability and safety guarantees the timely delivery of cement, effectively meeting the diverse requirements of the construction and infrastructure industries.

Dump Truck:

At Earadat, we proudly provide dependable Dump Truck services, offering efficient solutions for the transportation and disposal of materials. Our well-equipped fleet of Dump Trucks is dedicated to handling a wide range of hauling requirements, ensuring timely and effective support for projects such as construction, excavation, and various other endeavors. Your material transportation needs are in capable hands with Earadat.

C. Customs Clearance & Logistics Services:

At Earadat, we specialize in offering comprehensive Customs Clearance and Logistics Services to a diverse range of companies across various industries. Our expertise extends to handling customs clearance for Sea Freight, Air Freight, and Land Freight shipments, ensuring a smooth and hassle-free import and export process for our valued clients. Our goal is to expedite the clearance process, minimize delays, and maximize cost-efficiency.

Sea Freight Customs Clearance:

We have a dedicated team of experts well-versed in the intricacies of sea freight customs clearance. Whether you're importing or exporting goods via sea, we navigate the complex customs regulations and procedures to ensure your shipments comply with all necessary requirements.

Air Freight Customs Clearance:

When it comes to air freight, time is of the essence. Our experienced professionals understand the urgency associated with air shipments and work diligently to facilitate swift customs clearance. We liaise with relevant authorities to expedite the process while ensuring full compliance with customs regulations.

Land Freight Customs Clearance:

Whether you're transporting goods by road or rail, we have the expertise to handle land freight customs clearance efficiently. We ensure that all necessary documentation and paperwork are in order, preventing delays and ensuring the seamless movement of goods across borders.

Our commitment to excellence in customs clearance and logistics services is rooted in our dedication to providing tailored solutions for each client. We understand that every shipment is unique, and we strive to offer personalized support to meet your specific needs.

By choosing Earadat, you can trust that your customs clearance and logistics requirements are in the hands of professionals who are committed to delivering a reliable, efficient, and cost-effective service, helping you streamline your international trade operations.

Manpower & Facilities:

A. Workforce:

In 2010, we had a dedicated team of 450 individuals who contributed to our mission and growth. Over the years, our company has flourished and expanded exponentially. As of 2023, our Earadat family has grown to encompass over 2,000 talented and hardworking employees. This remarkable increase in our workforce reflects our unwavering commitment to innovation, excellence, and providing opportunities for talented individuals to join us on our journey towards success.

B. Facilities & Operations Areas:

Earadat is proud to operate from eight strategically located facilities across different cities, each featuring state-of-the-art maintenance workshops. These workshops are equipped with cutting-edge tools and technology to ensure the highest standards of maintenance for our valued customers. Moreover, our company is strengthened by a substantial team of highly qualified engineers and skilled technicians who play a pivotal role in supporting our operations. Their expertise and dedication enable us to provide top-notch services and solutions to meet the diverse needs of our clients. At Earadat, we are committed to excellence in every aspect of our operations, and our maintenance capabilities are a testament to that commitment.

Safety & Training:

At Earadat, safety is our top priority. We are committed to providing a secure working environment for our employees and the communities we serve. We promote safety awareness and responsible driving behavior through regular meetings and comprehensive training programs. Our dedication extends to staying current with safety regulations to prevent incidents, injuries, and property losses. Safety is a core value that guides all our operations.

A. Employee Training:

We invest in ongoing training programs to empower our employees with the knowledge and skills needed to excel in their roles, whether it's technical proficiency, safety protocols, or customer service.

B. Bus Simulator:

Our state-of-the-art bus simulator program helps our drivers enhance their skills, practice emergency responses, and ensure the highest level of safety for our passengers and communities. It's an essential part of our training program.

6. Intelligent Transportation System (ITS):

Our advanced ITS solutions include real-time tracking, traffic management, and communication systems that optimize routes, reduce congestion, and improve efficiency. This technology enhances the reliability and safety of our operations while also reducing environmental impact.

Intelligence Transportation System (ITS)

We have implemented advanced ITS solutions to revolutionize our transportation services. Our ITS technology encompasses real-time tracking, traffic management, and communication systems that enable us to optimize routes, reduce congestion, and enhance overall efficiency. This technology not only improves the reliability and safety of our operations but also contributes to reducing environmental impact.
